Community Healthcare Partners Wins Parkland Hospital Contract

Carrollton, Texas – July 8, 2010 – Community Healthcare Partners (CHP), a joint venture of Brandt (www.brandteng.com) and Dynamic Systems, Inc. (www.dynamicsys.com), has been awarded the mechanical systems contract for construction on the new Parkland Hospital project.

CHP has assembled a team of local mechanical professionals with extensive healthcare credentials and relevant healthcare mechanical project experience to focus on delivering a quality product in the most efficient manner possible. The CHP team's combined experience includes completing 80 successful healthcare projects valued at over \$773M in the last ten years.

“Our project team offers the new Parkland Hospital project the most dynamic and highly respected group of mechanical service providers,” said Barry Moore, president of Brandt. “We recognize this project as crucial to the continued growth of Dallas County and we are excited to partner with BARA and the hospital project team to produce a superior asset we all deserve.”

CHP also represents a commitment to sustainable design and environmentally conscious solutions. The CHP team has built the only Leadership in Energy and Environmental Design (LEED) Platinum certified healthcare facility in the nation, Dell Children's Center in Austin, Texas, and a large part of the team will operate out of a LEED Gold certified office building.

According to Mark Kelly, Dynamic Systems vice president and division manager, both Brandt and Dynamic Systems, Inc. provide innovative, value-conscious environmental solutions to complex problems. “By combining that expertise, we have created a dream team that will strive to exceed all expectations, including the county requirements that this hospital be LEED Silver certifiable,” he said. “The new Parkland Hospital will benefit the residents of Dallas County with a much reduced carbon footprint and will serve as an example of the county's commitment to sustainable design.”

For more information on the CHP team and the new Parkland Hospital mechanical systems, contact Barry Moore at 972-395-6000.

###

Brandt (www.brandteng.com) is a \$300M privately held mechanical and electrical construction firm with offices in Dallas, Fort Worth, Waco, Austin, and San Antonio. Founded in 1952, Brandt is a recognized leader in environmentally-conscious building systems, employing over 2000 employees in Texas and servicing the healthcare, education, industrial, office, hospitality, and critical environment markets.
